Early Detection of Chronic Kidney Disease using Machine Learning

What do they THINK AND FEEL?
what really counts
major preoccupations
worries & aspirations

- How much fast does it shows the prediction?
- Is the system user friendly?
- Does the system shows proper and accurate results?
- It helps in prediction for medical professionals
- Is this like a regular test?
- Can it be trusted?

What do they HEAR?
what friends say
what boss say
what influencers say

- Consult best Nephrologist
- Reduce the intake of potassium foods
- Helps to predict outcomes
- Don't get stressed by the process

What do they SEE?
environment
friends
what the market offers

- Machine Learning model incorporate risk factors
- Visiting the best centre for medication
- Life Threatening disease
- Fluid Retention

What do they SAY AND DO?
attitude in public
appearance
behavior towards others

- Can you help me?
- Everything will be fine one day
- Be strong to face the challenges
- Optimisitc and perseverant
- Expressing the improvements through positive behaviour
- Ask how to overcome the pain and challenges

PAIN
fears
frustrations
